LIBRARIAN'S REPORT

Chesterfield, N. H.

To the Trustees of the Chesterfield Library:

The annual report is herewith presented:

For the year ending December 31st, 1949, the circulation at the Chesterfield Library, excluding the two branches was 6,351 volumes. Of this number, 1,053 were taken out on the Saturday afternoons that the Library was open from April 1st, to Dec. 10th. The number of borrowers for this year was the greatest of any year since the opening of the new Library in 1939; there were 216 in all, 159 adults and 57 juniors. A total of 194 books was purchased in this period; 98 adult and 96 junior. As I have mentioned before, these figures do not include either branches as there has been no report from Spofford and West Chesterfield reports "no borrowers." Children in the other sections of the town have been taken care of, to a partial extent, by the sending of books to the schools, but I think that there is a great deal of room for improvement here, not only on the serving of the juniors but through them, their parents. Perhaps in another year a solution will be found for this situation.

The experiment of having the Library open an extra day, in my opinion, was a great success. It not only made it possible for people who spend only weekends in Chesterfield to obtain books, but for the regular readers, it gave more opportunity to exchange their reading material. Audrey Chickering assisted me on Saturday afternoons and was a very helpful and efficient librarian. Each Saturday found more and more people taking advantage of the building being open and where, as the first month showed only 88 books loaned, the last month had twice as many. There were also many visitors on these days and we found that the "open door" was definitely an invitation to come in.

For the record, I would like to say that I think that the Library should always be open on Old Home Day and if possible through a good part of the evening. We had many visitors on this day and even some of the younger group from Westmoreland brought friends in to show "the lovely Library that Chesterfield has."

Many of the junior members of the Library have helped this year but I hesitate to mention any for fear that others might feel slighted but I do think that it should be known how willing they have been to help at any time.

Books donated this year were from the following: John Dean, Audrey Chickering, Mrs. Verne Rollins, Mrs. Roger Spaulding, Allen Hayes and Mrs. Henry Spaulding.

We feel very fortunate that we are able to borrow books from the State Library in Concord. This has been done for reference work of the High School students.

In closing, I wish to say that ten years ago last September, Morris Friedsam, the man that made this Library possible, said to me, "I would like to see the Library become a friendly meeting place in the center of the community, where a person could come and visit with others." I am pretty sure it has.

Respectfully submitted,
JESSIE B. FARRINGTON,
Librarian.

REPORT OF SUPERINTENDENT OF SCHOOLS

Today there are many thousands of children being instructed by undertrained, inexperienced teachers. Fortunately the schools of Chesterfield are staffed with capable, well-trained teachers, doing a very creditable job under difficult conditions. As superintendent it is my purpose to sustain the professional morale of our staff by offering them encouragement in their work and support in their efforts to maintain classroom efficiency at a high level both in discipline and instruction. Parents have been most cooperative in this effort.

First steps have now been taken to provide each pupil with a guidance folder. This will contain a complete record of the marks, intelligence tests, aptitude tests, school activities and family data necessary to guide the work of the pupil and improve the usefulness of his education. Through the cooperation of the State Dental Division and the Federal Government, each child in Chesterfield will have an opportunity to have a complete flourine treatment for his teeth, at no cost. The Union has also purchased an audiometer to determine the hearing difficulties of our pupils and this will be available whenever needed.

SCHOOL PLANT

All citizens of the community know the conditions in our three school buildings; no running water, poor lighting, no space for assembly programs, motion pictures and other modern essentials for a complete educational program. This year the community will again have an opportunity to decide whether its children are to have the advantage of a consolidated school. There will be many arguments against a new school. I can only assure you; that after many years as a teacher and eight years of college training in the field of education; that a consolidated school will bring to your children many educational and

cultural advantages which they do not now have, and which cannot be measured in dollars alone. We are now spending billions of dollars abroad to protect the world against communism. Communism thrives on ignorance which is the result of poor schools; let's spend some money at home on our own schools.

STATISTICS

Different pupils registered in the district	163
Pupils in elementary public school	144
Pupils in high school	49
Pupils in private schools	6
Number of days schools were legally in session	181
Per cent of attendance	93.86
Days lost by absence	1,576
Number of school-years lost by absence	8.7
Loss of money due to absences	\$3,300

The above statistics show that Chesterfield has one of the poorest attendance records in this area of the state. Over 8% of all school time, education and money is lost due to absence from school. The education thus lost is equivalent to 8.7 years of schooling and to a sum of \$3,300. Studies show that less than 2% of time lost due to absence is really for good cause. We do not want sick children in school and the community cannot afford to have well children at home. We earnestly request that parents assist all teachers in reducing loss of time from school to a minimum.

CONCLUSION

Cooperation and understanding are the necessary elements in any group endeavor; these are what make it possible for teachers, school board members and patrons of the schools to work together for a common purpose,—the best possible education for our children.

Sincerely,

CHARLES BOWLBY,

Superintendent of Schools.

REPORT OF SCHOOL NURSE

Inspection of pupils showed the following defects:

- 140 pupils were inspected
- 4 pupils were underweight
- 10 pupils showed defective vision
- 5 pupils showed poor posture
- 79 pupils were in need of dental care
- 7 pupils were advised to have throat and nose examination by a physician
- 2 pupils were unvaccinated without proper excuse
- 32 pupils had their teeth cared for
- 8 pupils had tonsil and adenoid operations
- 2 pupils had eye examinations and defects corrected

All vision tests were given with the Massachusetts vision testing equipment, and hearing tests given with a Maico Audiometer. These two instruments are the best available for determining accurately the existence or non-existence of sight and hearing defects.

Respectfully submitted,
FRANCES EDGETT, R. N.,
School Nurse.

REPORT OF MUSIC SUPERVISOR

Mr. Charles Bowlby,
Superintendent of Schools,
Marlboro, N. H.

I herein submit my report concerning the Elementary Music in the Schools:

The ultimate aim in our Music program is to develop the kind of person who will want to carry over his musical skills and interests into his daily life, after his school experience, and, thus, contribute to the social and cultural life of his community.

Toward achieving this aim, in the Elementary grades, we are carrying on a program of singing, music reading, tonal perception, rhythmic, and listening activities.

School Music's greatest value lies in the fact that it is a cooperative enterprise, wherein all students must work well together, to get good results.

Respectfully submitted,
FREDERICK P. PERKINS,
Elementary Music Supervisor.

FOREST FIRES—OUR MOST SHAMEFUL WASTE

Everyone apparently fears fires but too many are careless with it. This is particularly true of fires in and near woodlands. Official figures show that more than 98 percent of all forest fires result from human carelessness and can be prevented. Consequently, we may say "Forest Fires are our most shameful waste".

Annual forest fire losses are tremendous and their effects far reaching. Such fires destroy the raw products of the forests, the protection forests provide for game and the supply of ground water. They upset local economies by drawing men from gainful employment and requiring the expenditure of public funds to extinguish them.

Our forest fire organization is doing a good job in keeping the size of fires small but the number of fires is increasing. In 1949 there were 100 more fires in New Hampshire than in 1948, but they burned 500 acres less. For the warden and his deputies to do the job they are capable of, they must have the cooperation of the public—YOU!

The primary objective of all fire fighters is PREVENTION—fire stoppage. This is the goal toward which your local forest fire warden and his deputies are constantly working. It can be achieved ONLY if YOU and YOU cooperate with them. It is worth YOUR effort and can be accomplished by:

- (1) Being careful with fire in or near woodland, being particularly careful with matches and cigarettes.
- (2) Securing the required written permit from the warden when the ground is not covered with snow.
- (3) Insisting that others be careful and comply with burning requirements.
- (4) Calling the warden promptly when fire is detected and aiding him to extinguish it.

Let's reduce the number of forest fires and eliminate our most shameful waste.

F. J. BAKER,
District Chief.

1949 FIRE RECORD—CHESTERFIELD
